

# Tibetan Pulsing UK Newsletter December 2010

Dear Friends,

We have just completed our last Astro/Organ workshop in the sign of Sagittarius, experiencing Jupiter, and how this planet of expansion functions with our pancreas, the organ of creativity and the duodenum, on respect and money.

*Many insights came up and also great debates on the meaning and energy of money (obviously a hot topic). We discovered that it feels wonderfully liberating to follow our heart's desire to create abundance, rather than follow the mind, chasing security, a fear based path. This heart/mind battle, joy/creativity or fear/limitations is one we are all working to master. It requires moment by moment awareness of how we are feeling and then making a choice.*

Members of the group shared experiences of strong clearances during the bodywork, issues of self respect and self belief with desires for more creativity were clearly on track with clearing the pancreas and duodenum circuits. The group was powerful and many said how energized they felt with a new vision after the workshop.

Opening up our cosmic/star connection and feeling where it links into our organs, in our bodies is tremendously invigorating and blissful. Feeling our cosmic connection is giving us all tremendous support in these times of relentless change.

## Winter Solstice

This solstice, 21<sup>st</sup> December is co-inciding with a lunar eclipse in Gemini – so it's going to be a phenomenal time and opportunity !

Take some time to be alone, in nature and to meditate, (esp. good after a shake). It will be a wonderful chance for going in deep . . . .

### Solstice/ Lunar Eclipse:

An opening of the unconscious energy that will precede Uranus returning to Aries in March next year. New beginnings.

The Moon will be opposite to Pluto during the eclipse, deep transformation of the past, our relationship with the feminine, and that which no longer serves us must be let go of.

An opening up of shadow energy, of the collective/transpersonal in a HUGE WAY.

During the day, the Moon moves into Cancer, and the Sun into Capricorn. With Saturn in Libra it is in opposition to Aries and forms the other branch of a grand cross of the four cardinal signs. The cardinal signs have an initiating and dynamic quality, so this is a very active period.

## Next Astro/Organ Workshop

8th, 9th & 10th January 2011. Sat, Sun, & Mon.

This workshop will be happening in the sign of Capricorn, under the rulership of Saturn and relating to the legs and cerebellum organs. The legs are a very intense organ, giving us our sense of capacity, very energetic like the horse. Meditation in action. The cerebellum is our internal TV screen, our dream state and comprehension, our IQ.

We will be working with Saturn, the planet of restriction or discipline bringing in the potential of crystallisation. Crystallisation is what gives us our capacity and comprehension, the qualities of the two organs ruled by Saturn. This excerpt describes this process very well:

*The third aspect of the earthly face of God is **CAPRICORNUS, THE GOAT**. This animal lives in the region of the hardest matter on earth, stones, rocks and boulders. The centripetal force of the law of matter causes matter to reach the highest degree of hardness and consequently crystallizes. In the crystal, matter overcomes itself and becomes perfectly transparent. Matter reveals the original geometric forms of the creative power in the crystal. A child, too, is the solidified, crystallized form of the divine creative power of life. Through the centripetal, compressive power of concentration, the achievement of the divine self, the divine child - consciousness - is born in the soul of man. The only path which can lead man back into the lost paradise, is that of concentration. This force helps man fully to manifest and achieve the divine in and through matter - in the body. That's why the birth of the divine child is celebrated in the month when the sun stands in the sign of the Goat.*

It is going to be interesting to feel how Saturn is affecting us in these two aspects of ourselves. I can feel another powerful workshop manifesting for wintertime, the opportunity for deep transformation.

## **New discovery about Saturn's rings and how it is affecting our consciousness.**

On October 7, 2009, NASA's Spitzer Space telescope discovered a gigantic new ring system surrounding Saturn and its existing ring system. The scale can be likened to Saturn and its original rings being the size of a pea with the new ring system being the size of a Frisbee.

Collectively this represents a gigantic leap in expansion of human consciousness, a removal of limitations that had been in place for millennia, making available to our conscious minds that which previously was not. The 'Ring Pass Not' has just been increased substantially, like the loosening of a necktie. Humanity is standing at the threshold of a whole new age of adventure, experience and understanding.

## **New Year's Resolutions**

**For 2011, what would you like to create ?**

There has been a lot written on mind power, manifestation, the law of attraction .... we as the creators of our lives, but one aspect that seems to make a big difference is being emotionally engaged.

To make manifestation really work, we have to link in EMOTIONALLY with the visualisation.

We have all had the experience of life opening up for us because we passionately wanted or followed something.  
What do you feel passionate about ? Spend some time on your dreams for 2011.

## **Blood Wash**

**Many of us of are giving this one a go:**

New product out which we are recommending for cleaning our blood, liver, colon and kidneys. Made from neem, cedar, essential oils and much more using Nano technology. Able to penetrate areas not normally reachable. Kills bacterial and eradicates toxins that harm and are cause of many ailments. Great success with HIV, aids, cancer, psoriasis, parasites, fungus etc.

Wishing you all a wonderful and happy celebration of Christmas with your families and friends and look forward to meeting again in the New Year,

*Love*

*Susanne Prabhuta*
