"THE NEW MAN/WOMAN FOR THE NEW YEAR

Here's a question that was recently posed to the Dalai Lama to hail the birth of 2011:

"What thing about humanity surprises you the most?" His answer was as follows:

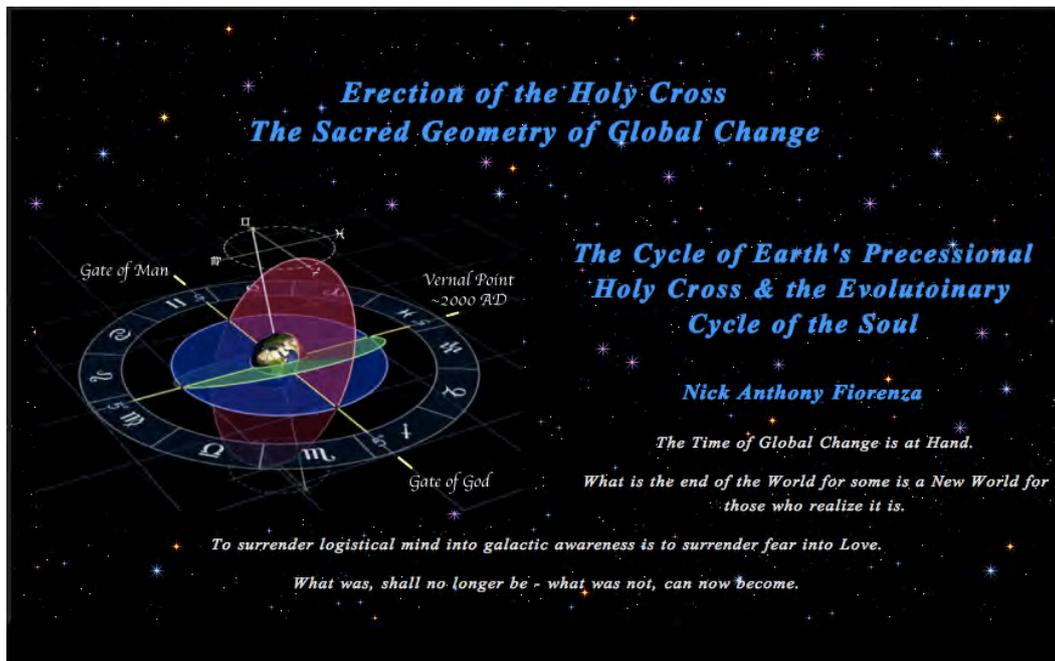

"Man"

*"Because he sacrifices his health in order to make money
Then he sacrifices his money to recuperate his health
And then he is so anxious about the future that he doesn't enjoy
the present
And as a result he doesn't live in the present or the future
And he lives as if he's never going to die, and then he dies having
never really lived."*

Dear Friends,

It's so fantastical what is occurring on Mother Earth and at the same time everything apparently appears to be normal that it deserves a reminder of all the amazing events happening in our life time. Many people may not even know about it, or take it for granted. Through our technological age, we are often so preoccupied with work and living that we have lost touch with our sacred cosmic connection. The indigenous people are very aware of what is happening and have been holding ceremonies for earth changes for years. Such as, the cycles, the eclipses, the Precession of the Equinox the wobble in the Earth's axis, happening every 25,920 years, bringing us to 2012, the sacred and secret event that happens within that cycle of 13,000, that changes the course of history.

The Earth's Kundalini energy shifting from Tibet to the Andes Mountains in Chile, the new "Tibet". The transference of the male power to the feminine for the next 13,000 years where the feminine will lead humanity into the New Light permeating the entire range of human experience from female leaders in business, religion and contributing to every level of the new society. By 2012 to 2013 the light will become so strong that it will be obvious to all. The beginning of the Golden Age.

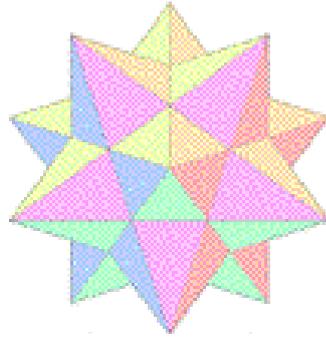

The earth's kundalini energy is the secret energy that is connected to the hearts of all humanity. It will become possible to breathe and live as ONE HEART, as the Tibetan say, there is only one of us and as the Mayans say, another me, or the well known *namaste* (I salute the God within you).

The latest eclipses,... the lunar eclipse on the day of the Solstice, was very powerful followed by the partial solar eclipse and many have been feeling the energy effects, such as tiredness, memory loss, disturbed sleeping patterns, confusion, feeling heavy, uncoordinated, out of synch, anxiety, dizziness, nausea, not feeling like working, time speeding up, stress, feeling on a different time to what is happening, etc. etc. One of us has even been having an alarm clock ringing in the night, even though there is no clock in the room. Wow.

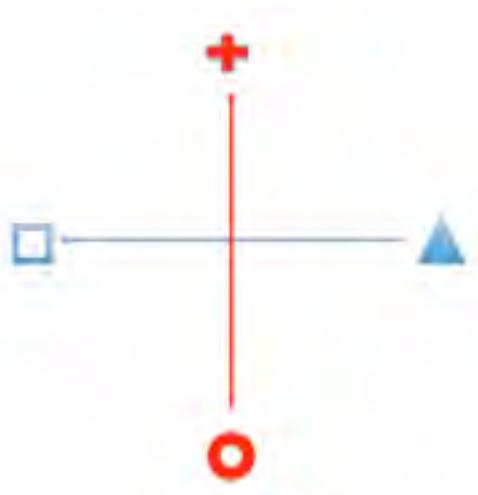

It has to do with the earth herself moving to 5th dimension whilst appearing to still be in the 3rd dimension. Our bodies are undergoing a lot of changes and recalibration and it is all happening organically through grace and light.

TP using the power of the living 'pulse' is aligning us with the heart of existence, with the electro magnetic grids surrounding the earth (known as the christ consciousness grid or feminine grid in the geometric shape of the stellated dodecahedron), recalibrating our body energy system into the New Light frequency pouring forth, releasing pain and trauma of the past cycles, releasing identification, moving into the heart, feeling, being in zero, silence, peace.

The Planets & Organ series of workshops has been right in tune, starting on a Grand Cross, without planning it and has been organically and mysteriously dealing with all the issues that are happening on a planetary level. Although working with the bio-electricity and internal organs for over 25 years, it has been amazing for me to feel the Planets so directly, so tangibly., and the Divine Blueprint within us all. Through this experience of the microcosm of our own body, we get to experience the macrocosm and it is surprisingly close to us. Skin deep.....

The Cross of Bio-Electricity taught in the Intensive showing the masculine and feminine energies, the horizontal, the male from mind to hara, that has been ruling the last 13,000 years and now moving to the vertical, the feminine from heart to unity for the next 13,000 years.

As the wobble of the Earth's axis slowly turns in circles it points to and passes through all twelve of the heavenly constellations. These 12 divisions last about 2,160 years and on 21st December 2012 the axis of the Earth will be on a new constellation, the age of Aquarius.

This weekend we will be working with Aquarius and the associated organs, the Brain, Divine Mind, the cosmic toy, computer, deals with fear and karma and the Arms, extensions of the Heart, the feminine, grace, or fear of doing, fighting/protection etc. Fight or love.

Capricorn ruled by Saturn, the process of crystallisation, like a diamond. The legs organ our past, what we try to escape comes with us in the tensions held in our legs. Dreaming with the cerebellum, dolphins and wisdom.

Sagittarius so single pointed. The Pancreas, the Shiva healer organ, the creator, destroyer and transformer. Sex, drugs and rock and roll. Clean up your act, find out your values and live by your ethics.

Scorpio did not let us down with her mysterious transformative forces, bringing intensity and depth. This resulted in some major liver and gall bladder clearances.

We experienced an epiphany of love in Libra, wonderful, wonderful energy as three goddess women in the group showered their Libran love energy.

On the Virgo Weekend Bladder/Kidneys, we saw a ceremony for the handover of power from the masculine to the feminine. This was a profound experience as the kidneys hold the blueprint of our feminine energy. Purification, rest, relaxation, meditation and clarity.
